

GREASE HI-TEMP PRO 3

DESIGNED FOR THE MOST DEMANDING APPLICATIONS

Maximize efficiency and protect your bearings with our grease!

Formulated to reduce friction and corrosion, as well as promote lubrication, ensuring smooth operation and long life in your applications.

Advantages of Fersa grease

- Temperature resistance up to 160 degrees
- Improved composition that favors excellent lubrication
- High adhesion due to plastic deformation of micro additives.
- Oxidation resistance and vibration consistency

Technical specifications

Available sizes	1 kg
Nature of thickener	Lithium Complex
Dropping Point	>220
NLGI Consistency	3
Oil viscosity (cST 40°C)	150-220
Welding load Test EP 4balls (kg)	>200
Color	Blue
Operating temperature	-30 / +160 °C -22 / +320 °F
